- **Challenge:** How to Provide Flexibility and Choice for Volunteers
- **How StratusLIVE Approaches This Challenge**
- **StratusLIVE Ignite Volunteer Now Demo**
- **Q&A**

Speakers

Jennifer Mitchell
Project Manager

Kelly Perry
Digital Marketing Manager

How to Provide Flexibility and Choice for Volunteers

StratusLIVE

Common Question

How do I offer options for my volunteers based on their availability and comfort levels?

At the click of a button, your volunteers can peruse your upcoming projects, sign up for a committee, or register for an event.

StratusLIVE

Common Question

How can I provide my corporate partners with one volunteer platform that does it all?

Volunteer Now

The screenshot shows a user interface for volunteering. At the top, a banner reads "Volunteer to work our Annual Walkathon to help raise funds and awareness for Parkinson's disease research." Below this is a modal window titled "Registration for Brian Billingham" with a close button (X). The modal contains a table with the following data:

Check the open shift(s) that you would like to register for:				
Start Time	End Time	Open Spots	Role	
<input checked="" type="checkbox"/>	3/1/2021, 8:30am	3/1/2021, 11:30am	50	Volunteer Registrar

Below the table are "BACK" and "NEXT" buttons. The main page below the modal shows event details: "Date & Time: 3/1/2021, 8:30am - 5:00pm", "Location: 5th Street Stage, Virginia Beach, 8:30am - 5:00pm", and an "Event Description" section. The description includes: "Calling all volunteers! We need assistance at our upcoming annual walkathon. Volunteers are needed to set up sign-in stations and assist walkers and runners. We also need individuals stationed throughout the event to pass out water. If you're passionate about our mission to raise money for Parkinson's disease research, register to volunteer today!"

- Allows for the creation of in-person, virtual, and hybrid volunteer events
- Enables the promotion of events throughout entire Ignite platform and on your website
- Offers dashboard visualization of volunteer event registrations
- Supports volunteer event sign-ups and donations

StratusLIVE

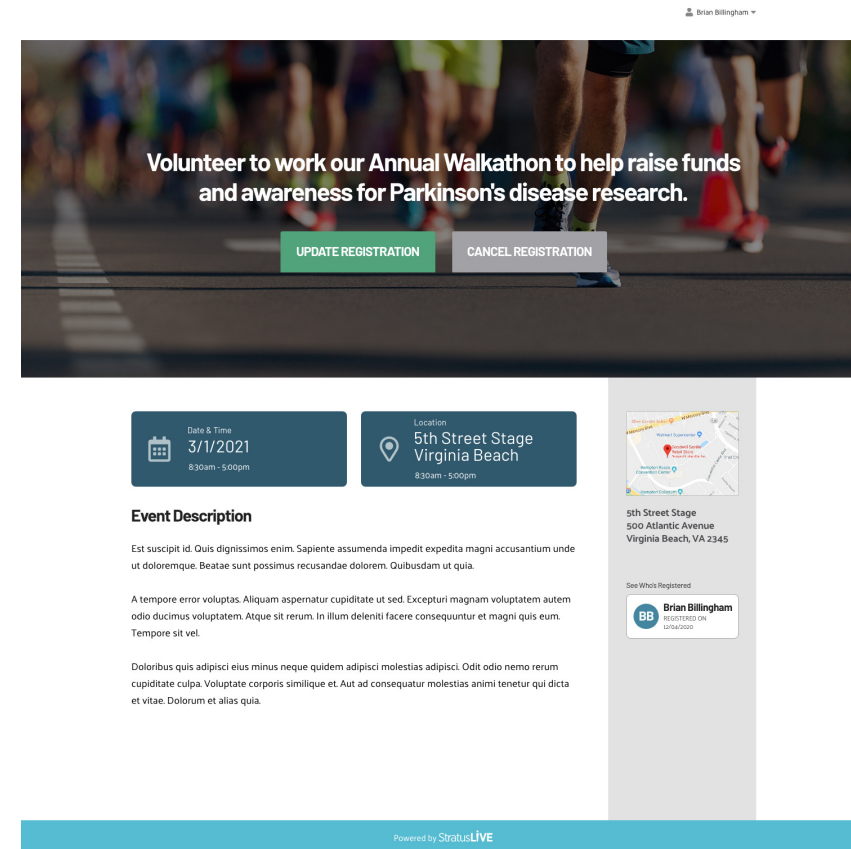

How StratusLIVE
approaches this
challenge

StratusLIVE

Design Differentiators

- Can be used for public events & workplace campaigns
- Point constituents to one place
- Personalize it with Google Maps!
- Branding control
- Automated emails sent with calendar invite

The screenshot shows a user interface for an event registration page. At the top right, the user's name "Brian Billingham" is visible. The main header features a background image of runners with the text: "Volunteer to work our Annual Walkathon to help raise funds and awareness for Parkinson's disease research." Below this are two buttons: "UPDATE REGISTRATION" (green) and "CANCEL REGISTRATION" (grey). The event details are organized into three columns: "Date & Time" (3/1/2021, 8:30am - 5:00pm), "Location" (5th Street Stage, Virginia Beach, 8:30am - 5:00pm), and a Google Map showing the location. Below the map is the "Event Description" section with placeholder text. A "See Who's Registered" section shows a profile for "Brian Billingham" with a "REGISTERED ON" date of 1/16/2021. At the bottom, it says "Powered by StratusLIVE".
